Product Overview

The DIGITUS® Fiber optic splice boxes display a sturdy and compact design and take care of the easy crossover between fiber optic installation cables to duplex- or breakout cables. The easy installation and the optimal protection of the fibers inside of the full metal housing are just a few advantages of these splice boxes. They are fully equipped and already contain splice cassettes, pigtailed color coded acc. IEC 60304 and the according couplers. Furthermore, DIGITUS® offers a various range of high quality fiber optic products like fiber optic patch cables, installation cables or cleaning tools, which represent a perfect supplement for your network.
