- **Dual output:**
 - HDMI® and VGA: 2x up to 1920x1080@60 Hz

Packing content
1x IB-DK2103-C, 1x manual

Fast Ultra HD

Notebooks and other mobile computers are getting thinner and smaller. This usually comes at the expense of connectivity. Thus, many notebooks don't have any video connections that are required by many display devices. The IB-DK2103-C provides fast help and has a VGA and HDMI® connection. The adapter is connected via a USB Type-C™ interface and can quickly be connected to screens with resolutions of up to 3840x2160@30 Hz.

Technical data

Model	IB-DK2103-C
Article no.	60392
EAN code	4250078167150
Brand	ICY BOX
Colour	Black
Material	ABS
Chipset	IT6562FN
Interface to PC	1x USB Type-C™, integrated cable, 15 cm
Interfaces	1x HDMI®, 1x VGA

Resolution

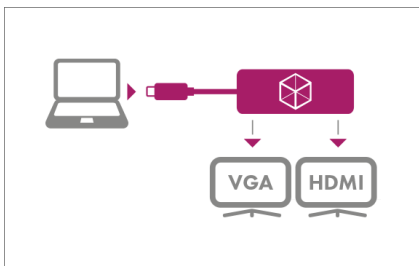

VGA up to 1920x1080@60 Hz
HDMI® up to 3840x2160@30 Hz
Note: maximum resolution depends on display configuration

Power supply Operating system System requirements

- Bus powered via USB Type-C™ port
Windows®, macOS®
- Host computer with USB Type-C™ interface supporting DisplayPort™ Alt Mode
 - Also compatible with Thunderbolt™ 3 equipped computers
 - To set up 4K resolution, a HDMI® display with 4K support is needed
 - There is no audio output from a VGA connection

ICY BOX IB-DK2103-C USB Type-C™ 2-in-1 video adapter

New and old

The IB-DK2103-C is designed to be connected to a computer (such as a notebook, etc.) with USB Type-C™ interface and DisplayPort™ Alt-Mode support. A VGA and HDMI® device can be connected and the adapter supports monitor resolutions of up to 3840x2160@30 Hz.

A great performance

Watch streamed videos through the notebook on a large TV screen or projector. Connected to an HDMI® display device, the adapter can transmit both the video and the audio signal, no additional audio cable is required.

Efficient work

You can use the IB-DK2103-C to extend the display of your notebook to a larger screen to increase your productivity or to mirror the content to do your work on a larger screen.
