Add Interactive Experiences to Digital Screen Overlay Touch KT-T Series

Overlay Touch KT-T Series is an attachable touch screen that easily changes standard signage products into touch products. With Overlay Touch, your screen will turn into interactive display which enables smooth writing and drawing experience with ten-point multi-touch function. This interactivity will bring a new experience into your places such as schools, companies, shops and etc.

Key Features

Multi-Touch with Slim Bezel

Multi-touch function is added on the existing display with the sleek and clean looking.

10 Point Multi-Touch

It provides a more realistic interactive sense with ten simultaneous touches.

Ghost-Free Touch

LG proprietary touch technology can draw clean and accurate diagonal lines through controlling multi-touch gestures in great precision. Clean multi-touch experience with IR Spread is based on our in-house IR-Spread technology which provides better accuracy compared to conventional IR Matrix.
