Handy, effective, safe

USB 3.0 has a bandwidth of up to 5 GBit/s. This is multiple times the transfer rate of USB 2.0. With this hub you can use the fast USB 3.0 for seven devices. USB 3.0 is downwards compatible, it works with USB 2.0 cables and devices (with their transfer rates). The USB charging ports (5 V, 2.4 A) meet the new USB battery charging specification (BC 1.2) and they can charge all the corresponding mobile devices such as smartphones, tablets, digital cameras and rechargeable batteries (i.e. power banks).
