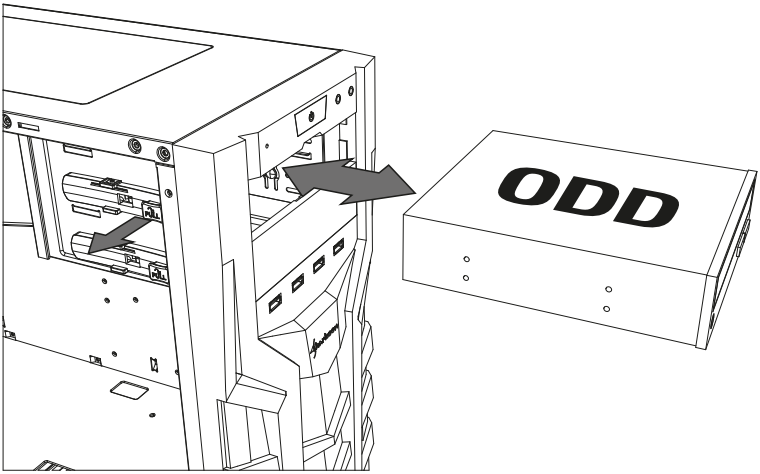
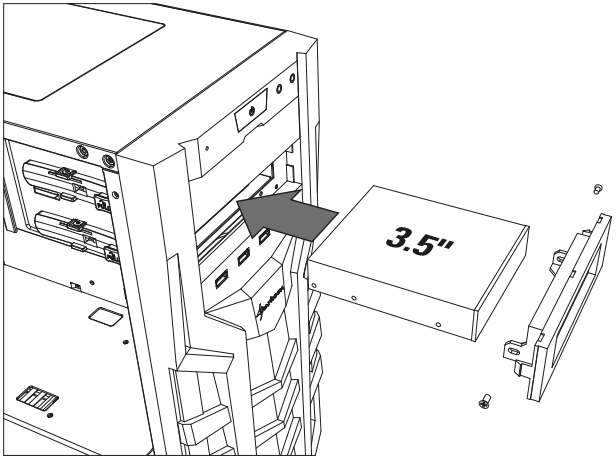
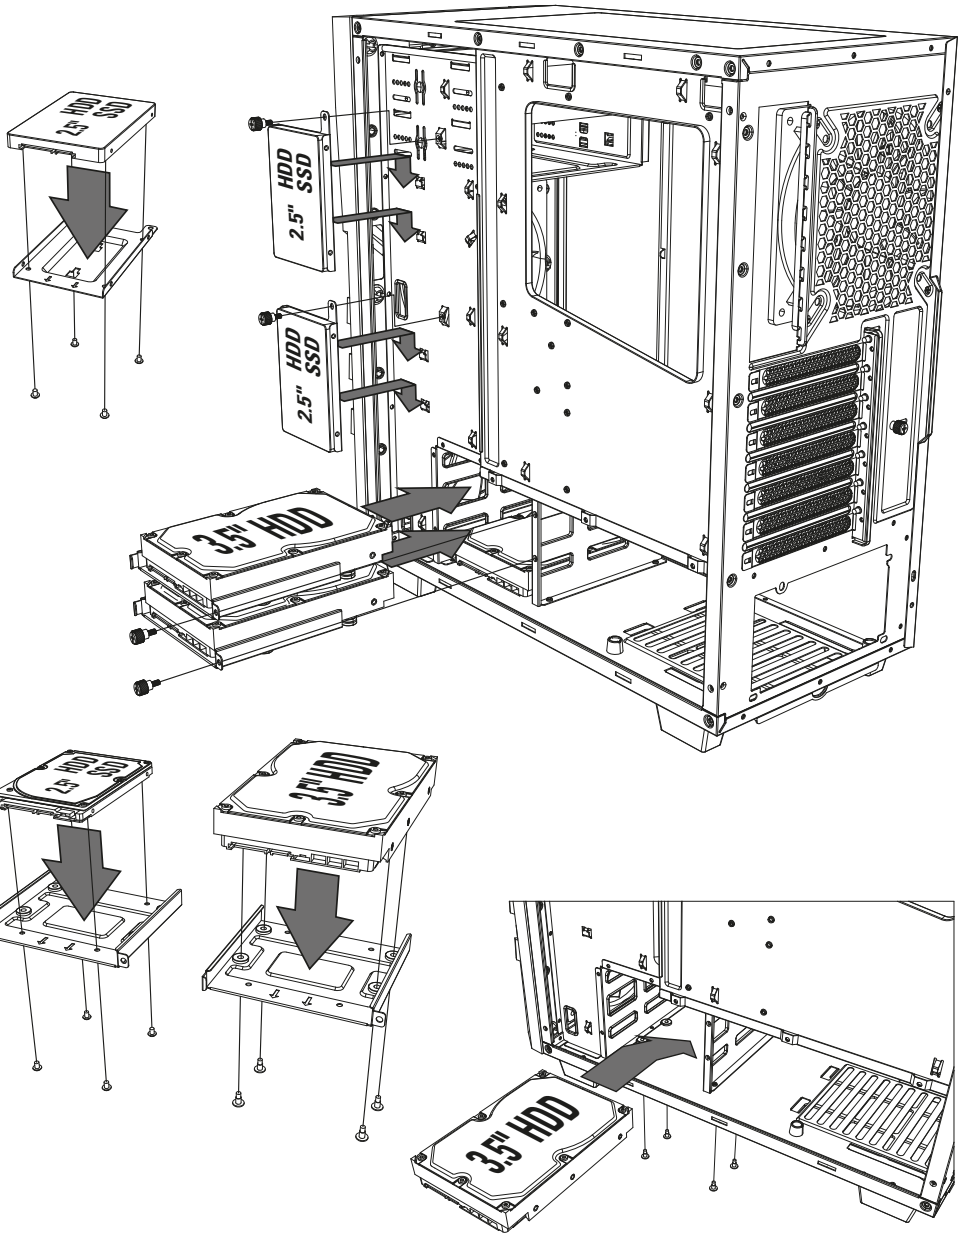
ODD Installation



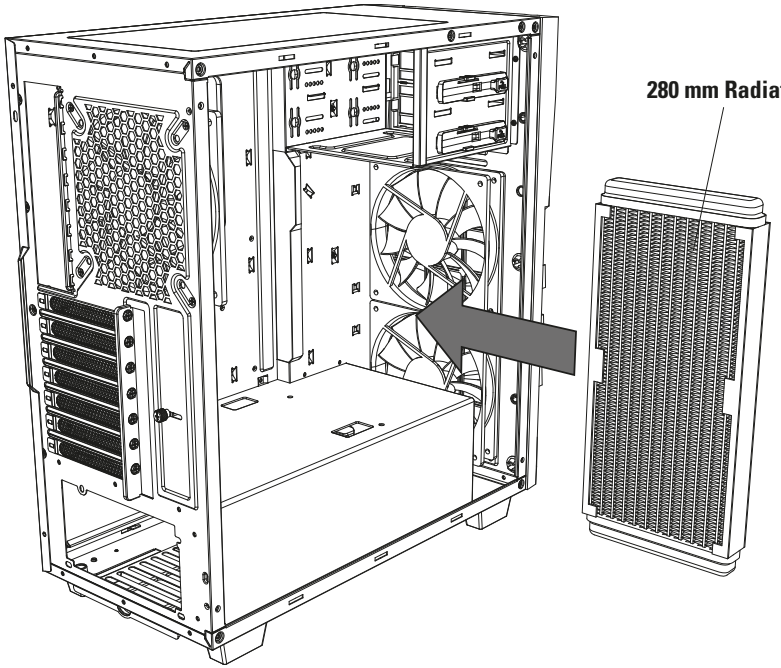
3.5" HDD Installation



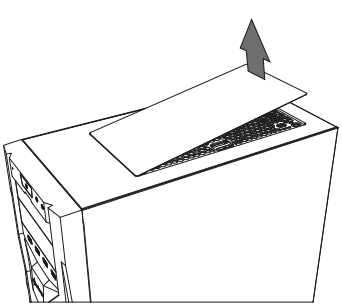
HDD/SSD Installation

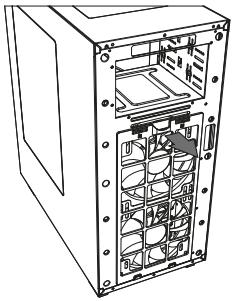


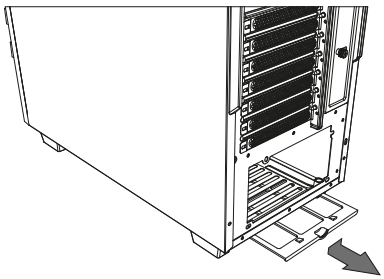
Front Panel Radiator Installation



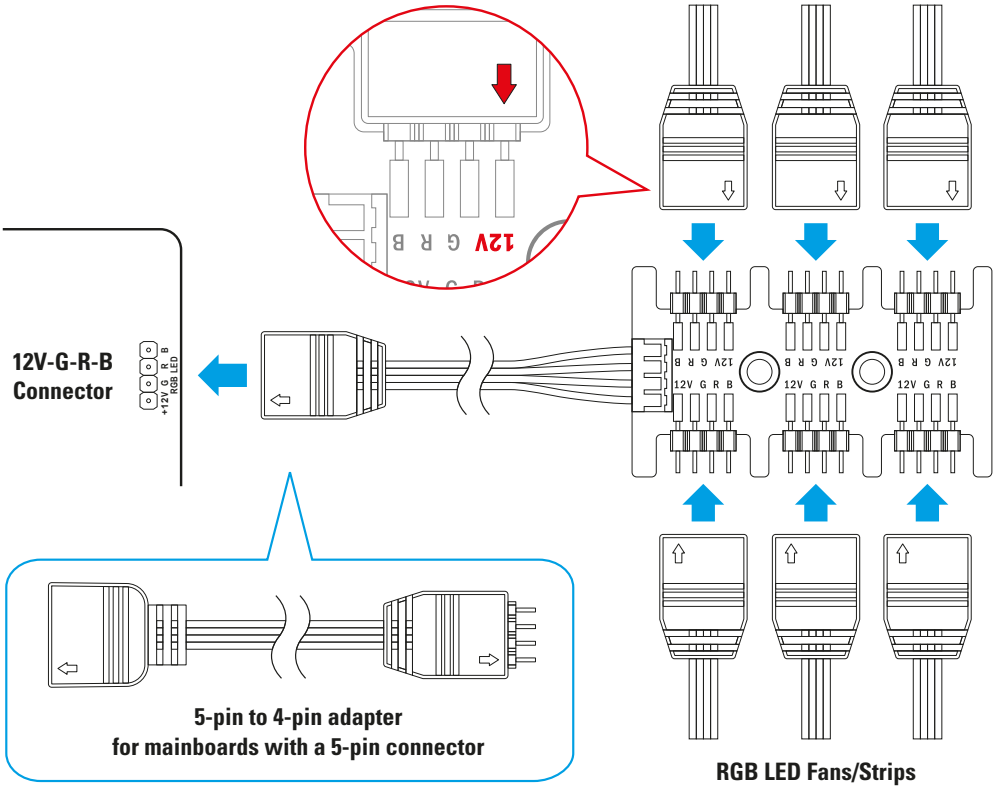
Detachable Dust Filter





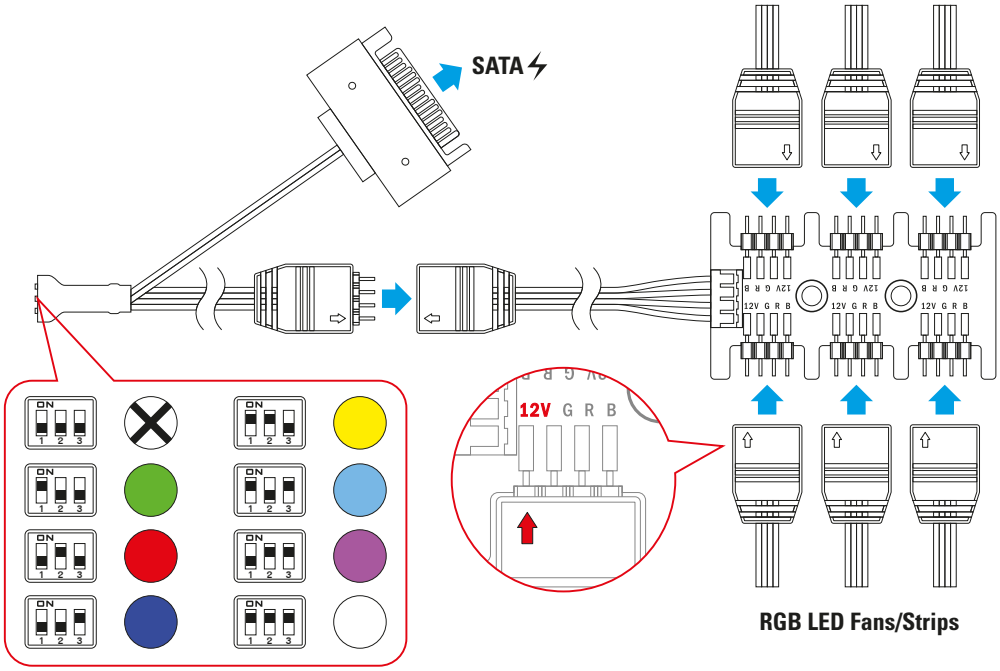


6-Port RGB Hub



The 6-port RGB hub is self-adhesively attached to the case interior and then connected to the mainboard's 12V-G-R-B connector. When connecting any elements, make sure that the 12V contact and the arrow on the corresponding connector are facing each other as shown.

Manual
Color Control



To illuminate RGB LED fans and strips on motherboards without a 12V-G-R-B connector, connect the manual color control as shown. The color of the RGB channels can then be selected via the DIP switches.

Note

Safety Instructions

In some cases, certain individuals may experience epileptic seizures if exposed to certain light frequencies, flickering light sources and patterns. Consult your doctor if you or one of your family members suffer from epilepsy. Even some people without a history of seizures or epilepsy may have an undiagnosed ailment. Seek medical attention if any of the following symptoms occur: visual impairment, eye and muscle twitching, loss of consciousness, disorientation, involuntary movements and spasms.

Make sure that the 6-port RGB hub is securely attached to the case interior. Contact with conductive surfaces may cause short-circuit hazard. Sharkoon assumes no liability for any data loss, especially due to improper handling.

Disposal of your old products

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

When this crossed-out wheeled bin symbol is attached to a product, it means the product is covered by the European Directive 2012/19/EU. Please be informed about the local separate collection system for electrical and electronic products. Please act according to your local rules and do not dispose of your old products with your normal household waste. The correct disposal of your old product will help prevent potential negative consequences to the environment and human health.
