Woodworking expertise: Power and precision

Range for 2010/2011:
Professional blue woodworking tools
for professionals from professionals

BOSCH
Invented for life

www.bosch-professional.co.uk

Developed for professionals, tested by professionals

As a professional in the woodworking trade, a lot is expected of you: speed, reliability and competence – in short: excellent results. So isn't it only fair to demand the same from your power tools?

The professional blue power tools for woodworking are engineered for excellence – meeting the highest standards in speed, precision and robustness. They therefore give you everything you need to achieve great, professional work results.

With **12 new products** and a new product line, the pneumatic nailers, Bosch is also pursuing a consistent strategy of innovation. When developing these innovations, Bosch works very closely with real professionals who use power tools as part of their everyday work and who also test the tools in extreme conditions. This means that you, the professional, can always count on this absolutely reliable technology.

“The GST 135 BCE Professional is very easy to use. I don’t know of any jigsaw that even compares when it comes to achieving high-quality and precise work results.”

Thomas Sutter, joiner, WorldSkills champion in cabinetmaking

The right saws for every job

Bosch offers the right tool for every woodworking application with its professional blue range of saws: Bosch jigsaws offer maximum precision, for example, when cutting cover strips and kitchen worktops. The hand-held circular saws perform impressively, even in extreme continuous use, due to their high power: e.g. when sawing roof panels or cutting roof beams to length. The sabre saws also impress when used for renovation work due to their reliability.

Precision and robustness:
Blue Bosch jigsaws for professionals

Patented Bosch Precision Control for cutting at accurate angles
Bosch Precision Control enables you to achieve precise work results, even in thick wood, sandwich materials and thin sheet metal. At the push of a button, the guide jaws adjust themselves precisely to the thickness of the saw blade, therefore holding it firmly in place and giving it additional support at the sides. This reduces vibration and guarantees uniquely precise cuts at accurate angles.

- Jigsaws GST 135 CE and BCE Professional:**
Unique: precision at the push of a button
- ▶ At the push of a button, the “Precision-Control” guide jaws adjust themselves automatically to the different saw blade thicknesses for cutting at accurate angles and for more precise guidance
 - ▶ Highest possible convenience with Bosch “SDS”, the world’s easiest way to change saw blades – using only one hand
 - ▶ Constant sawing progress even under load due to Constant Electronic

From the inventor of the jigsaw:
The result of over 60 years of experience

Bosch is the inventor of the jigsaw. And not only that: many technical innovations in jigsaws are Bosch developments. A current example: the Jigsaws **GST 135 CE and BCE Professional** with Precision Control and other solutions enable high-precision working.

Professional stacked construction and **aluminium housing** for long lifetime

Bosch SDS for fast one-handed saw blade changes

Swivel-mounted sole plate for easy mitre cuts and **glide shoe** to prevent damage to the surface

Constant Electronic for constant sawing progress, even under load

Dust extraction outlet for connecting to dust extraction systems

Air blower function for optimum visibility

Bosch Precision Control
▶ At the push of a button, the guide jaws adjust themselves automatically to different saw blade thicknesses
▶ Uniquely precise guidance
▶ Cutting at accurate angles

“Extra clean for wood” jigsaw blades for tear-free cut edges

1944

Bosch GEB 1: Bosch invents the first jigsaw for professional tradesmen

Bosch 8554: Bosch launches the first jigsaw with pendulum action onto the market

Bosch P 10: Bosch presents the first jigsaw with swivel-mounted sole plate for professionals

Bosch GST 60 PAE: Bosch develops the first jigsaw with tool-free saw blade changes

Bosch GST 135 CE and BCE Professional: Bosch presents the first jigsaw with tool-free switchable saw blade guidance (Precision Control)

Bosch GST 150 CE and BCE Professional: Bosch presents a jigsaw specifically for professionals on the construction site

2010

Current innovations from the inventor of the jigsaw: the new Jigsaws GST 150 CE and BCE Professional have been specially developed for the building trade. Their overload-capable 780-watt motor and extremely bend-resistant sole plate make them the ideal tools for the toughest applications.

NEW! Jigsaws GST 150 CE and BCE Professional:
The most powerful tools in their price class

- ▶ High power reserves, even in hard and thick beams, due to powerful and overload-capable 780-watt motor
- ▶ Extremely robust and bend-resistant sole plate for the toughest jobs
- ▶ High cutting precision due to new saw blade clamping system

Bosch Hand-held Circular Saws have been specially developed to meet the requirements of the building trade. Their powerful motors provide extremely high torque and they set new standards combined with their compact design and their low weight. This makes them perfect for comfortable working, even when used for long periods of time.

Hand-held Circular Saw GKS 55 Professional:
The compact, robust circular saw

- ▶ Low weight and compact design for optimum handling
- ▶ Powerful 1200 watt motor
- ▶ Punched aluminium base plate and closed pendulum guard made of die-cast aluminium can withstand even hard impacts

Extremely robust for lasting high performance
The closed pendulum guard without riving knife remains fully functional, even after being dropped from a height of two metres. The break-resistant aluminium base plate with integrated rail guide guarantees absolutely perfect cuts.

The perfect blade for every cut
Bosch offers a wide range of circular saw blades – for perfect cuts in hardwood, MDF or particle board. The guide rails from Bosch in lengths of 700 mm and 1,400 mm also help you to achieve perfectly straight cuts.

Hand-held Circular Saw GKS 65 Professional:
The powerful circular saw

- ▶ Powerful 1600-watt motor
- ▶ Punched aluminium base plate and closed pendulum guard made of die-cast aluminium can withstand even hard impacts
- ▶ Lowest weight in its class for optimun handling

Hand-held Circular Saw GKS 85 Professional:
The high-torque circular saw

- ▶ Extremely resilient 2200-watt motor for high torque in solid wood beams of any moisture content up to 85 mm cutting depth
- ▶ Punched metal base plate and closed pendulum guard made of die-cast aluminium can withstand even hard impacts
- ▶ Optimised chip deflector and turbo blower for a clear view of the score line and precise cut guidance

Bosch Sabre Saws will impress you with their high power and compact design. The patented Bosch SDS system makes it possible to conveniently change the saw blade in seconds.

Sabre Saw GSA 1200 E Professional:
The convenient tool with the fastest saw blade changes

- ▶ Patented Bosch SDS system for convenient and fast saw blade changes with one hand
- ▶ Brute™ Drive System: patented drive system for long operating times, even under extreme load
- ▶ Electronically controlled, continuously variable stroke rate control for material-specific working

Bosch sabre saw blades for every material
Brick, metal, iron, aluminium, wood and plastic – the sabre saw blades from Bosch make better cuts in every material. The SDS system on Bosch sabre saws makes it possible to change the saw blade in seconds.

The **Bosch Cordless Multicutter** enables perfect trimming, adjusting and repairing – without a cable. This makes it versatile for use in shop, kitchen and furniture fitting.

The Bosch Cordless Multicutter can perform the following tasks:

- ▶ plunge cuts
- ▶ flush sawing
- ▶ sanding, even in tight spaces
- ▶ and many more. And it does so without a cable, of course.

Cordless Multicutter GOP 10.8 V-Li Professional:
Perfect trimming, adjusting, repairing

- ▶ Wide range of applications such as plunge cuts, flush sawing and sanding due to a comprehensive range of Bosch accessories
- ▶ Excellent handling due to compact design and weight of only 1 kg
- ▶ Up to 20,000 oscillations per minute for the same professional performance as comparable mains-powered tools

	GOP 10.8 V-Li Professional
Battery voltage (V)	10.8

“I’ve been impressed by the precision of the GMF 1400 CE Professional. It’s ideal for routing with templates thanks to its low centre of gravity.”

Andy King, joiner

Perfect surfaces when **routing, planing and sanding**

There is no room for error when working on surfaces: as a professional, you want clean edges when routing. Material removal accurate to the millimetre when planing. Perfect surfaces when sanding. Bosch has the right power tool for every application, so that you can achieve excellent results without having to make compromises. Bosch therefore offers a perfect combination of power and precision.

-
- ▶ **Routers** P.14
 - ▶ **Planers** P.16
 - ▶ **Orbital Sanders** P.17
 - ▶ **Random Orbit Sanders** P.18

Bosch Routers set standards in precision. Whether you want to rout profiles and grooves in solid wood or board materials, round off edges or rout veneered surfaces and laminates flush – the unique Bosch routing depth fine adjustment guarantees precise results. Your advantage: precision for every range of applications.

Palm Router GKF 600 Professional:

The handy specialist for edges

- ▶ Very compact design and ergonomic grip area allow for one-handed guidance, especially for working on edges
- ▶ Continuously variable routing depth adjustment using the setting wheel and tight fitting of the motor enable exact setting and repeatable precision
- ▶ Comprehensive range of accessories in a sturdy carrying case for the many requirements of working on edges

Multifunction Router GMF 1400 CE Professional:

The flexible plunge-cutting and copy router

- ▶ Multifunction router: combination of plunge-cutting and copy router for perfect completion of all kinds of routing work
- ▶ SDS quick-change system: tight fitting of the separate motor block either in the plunge-cut or copy unit
- ▶ Powerful 1400-watt motor block in a robust aluminium housing with Constant Electronic for constant work progress

For precise work results

The guide rail for Bosch circular saws can also be used for the routers when combined with the Bosch guide rail adapter. This enables you to make absolutely exact grooves and cut-outs.

Router GOF 2000 CE Professional:

The robust precision plunge-cutting router

- ▶ Robust 2000-watt motor, which has sufficient power reserves for large routing diameters with its Constant Electronic
- ▶ Lockable setting wheels and clamp levers guarantee repeatable precision up to 1/10 mm accuracy
- ▶ The suspension of the plunge-cut function can be switched off for more convenient working at large routing depths and in bench-mounted use

Biscuit Jointer GFF 22 A Professional:

The precise specialist tool for wood joints

- ▶ Robust metal angle guides with embossed scales and lock-in points enable precise settings for accurate joints
- ▶ 670 watts provide optimum power for making frame, corner, longitudinal and cross joints
- ▶ Tool-free routing depth adjustment for fast work progress

Bosch Planers work extremely powerfully and very precisely with only one planer blade thanks to their powerful motors and the unique Woodrazor system. Bosch planers enable you to achieve perfect surfaces without the need for subsequent finishing work. This saves time and money.

Planer GHO 26-82 Professional:
The handy planer with lots of power

- ▶ Small, handy machine with powerful 710-watt motor, ideal for all on-site fitting work
- ▶ The fastest and least expensive blade changes on the market due to durable Woodrazor reversible blades and the easiest possible adjustment
- ▶ Comfortable working due to chip clearance to left or right, as desired

Planer GHO 40-82 C Professional:
The planer for extremely high surface quality

- ▶ The highest surface quality due to ultra-sharp blades and constant speed, even when working in hardwood
- ▶ The fastest and least expensive blade changes on the market due to durable Woodrazor reversible blades and the easiest possible adjustment
- ▶ The longest lifetime due to precise aluminium bearing seat and thermodynamic motor protection

Bosch Orbital Sanders excel due to their high material removal rate and extremely fine surface finish. They achieve the highest surface quality on every material thanks to their particularly easy handling and optimised speeds.

Orbital Sander GSS 140 A Professional:
Every type of sanding sheet sits perfectly with Easy-Fit

- ▶ A perfect hold of the paper without creasing and tearing due to Bosch Easy-Fit system – for Velcro-type paper and rolls of paper
- ▶ Bosch micro-filter system: perfect, efficient dust extraction
- ▶ Ergonomic design with two softgrip surfaces for two grip positions

Orbital Sander GSS 280 AE Professional:
The sander for extremely high surface quality

- ▶ High-quality sanding plates for the best surface quality and five times longer lifetime than rubber sanding plates
- ▶ Quiet and low-vibration for more comfortable working
- ▶ Best bearing seal and high-quality aluminium bearing flange for smooth running and long lifetime of the motor

The 1-blade Woodrazor system for perfect surfaces
The patented Bosch Woodrazor system has only one planer blade, so you no longer have to go to the trouble of aligning a second blade, and optimum results are guaranteed. The Bosch Woodrazor reversible blades are hard-wearing, ultra-sharp and durable for perfect surfaces without the need for subsequent finishing work.

Putting an end to fine dust
Bosch is the only manufacturer with a certification for air purity. The Bosch micro-filters collect 90% of dust, even particles 100 times finer than a human hair. Another advantage is the collection box, which removes the need for expensive filter bags.

Bosch Random Orbit Sanders ensure perfect surface results, even on curved and shaped workpieces. Excellent running smoothness and the freewheel brakes guarantee a surface finish free of scores and a high material removal rate.

The versatile GEX 150 Turbo Professional

From fine sanding to coarse sanding or polishing with one click. Five times more material removal when coarse sanding in turbo operation. This time-saving means that the tool pays for itself after only a few working hours.

Random Orbit Sander GEX 150 Turbo Professional:
Three tools in one

- ▶ Just one click: switch from fine sanding to coarse sanding or polishing
- ▶ Five times more material removal in turbo operation (coarse sanding); the time-saving means that the tool pays for itself after a few working hours
- ▶ Longest lifetime thanks to perfect bearing seals, overload protection and a robust turbo switch

The ideal special extractor for wood

Dust-free working with Bosch woodworking tools: the GAS 50 M Professional is the certified special extractor for wood dust. It extracts the dust with ease, and it fits on virtually all tools thanks to its flexible rubber sleeve. The Plus-Clean electro-magnetic filter cleaning system ensures constant, maximum suction power.

Random Orbit Sander GEX 125-1 AE Professional:

Comfortable sanding in any work position

- ▶ Compact, ergonomic design with large softgrip surfaces for variable grip positions and outstanding comfort
- ▶ Bosch micro-filter system: perfect, efficient dust extraction
- ▶ Speed preselection for material-specific working

Random Orbit Sander GEX 150 AC Professional:
The sander with high material removal rate

- ▶ The random orbit motion plus rotation ensures the finest finish with high sanding performance
- ▶ Aluminium bearing flange for long lifetime and high running smoothness
- ▶ Control Electronic and speed preselection, i.e. the right speed for every application

“The new GSN 90-34 DK Professional is great, especially when you need to drive rows of nails: it drives the nails very cleanly, it’s lighter than tools from other manufacturers and it sits comfortably in your hand thanks to its rubber-coated handle.”

Udo Ritz, carpenter

Every second counts, **every nail is driven perfectly**

Speed, precision and comfort are what counts in roof construction, interior fitting work and furniture construction. As a professional, you want to install roof battens quickly and achieve accurate results in interior fitting work. The Bosch pneumatic nailers guarantee fast work progress and clean, efficient working thanks to the innovative Bosch Full Force Technology and the Wood Protection System.

-
- ▶ **Framing Nailers** P.22
 - ▶ **Finishing Nailer** P.23
 - ▶ **Brad Nailer and Stapler** P.23

Bosch Pneumatic Nailers are developed for the toughest demands, and stand for performance, precision and robustness. Whether framing nailer for frame construction, finishing nailer for interior fitting work or brad nailer and stapler for furniture construction: Bosch pneumatic nailers with Full Force Technology and Wood Protection System give you everything you need to achieve excellent, professional work results.

NEW! Framing Nailers GSN 90-21 RK Professional and GSN 90-34 DK Professional for roof and frame construction:

The powerful tools for optimum work progress

- Full power, even at high firing frequency, due to innovative Full Force Technology
- Fast work progress due to tool-free release of the magazine when nails are jammed in the firing channel
- Compact design for more comfortable working, even in continuous use

The Full Force Technology makes the Bosch pneumatic nailer considerably more compact than other nailers in its class.

Every second counts, every nail is driven perfectly: Bosch Full Force Technology
The Full Force Technology (standard on all Bosch pneumatic nailers) has been developed and patented by Bosch. It has a new type of valve system that reduces the size of the pressure chamber without sacrificing impact energy. This makes the tool more compact and accelerates the build-up of pressure in the tool. It therefore enables you to drive nails in flush even at high firing frequency – for less reworking and higher productivity.

Optimum workpiece protection: Wood Protection System

The Wood Protection System from Bosch protects the wood by disabling the triggering mechanism when the magazine is empty (on GSK 64 Professional, GSK 50 Professional and GTK 40 Professional). Your advantage: the workpiece cannot be damaged by the striking pin and the tool components are not strained by blank firing. In addition to this, all muzzles on these Bosch pneumatic nailers are equipped with a detachable rubber tip – for optimum workpiece protection.

NEW! Finishing Nailer GSK 64 Professional for interior fitting work:
The compact tool for every work position

- Very compact tool design also enables work in hard-to-reach areas
- Quick and easy drive-depth adjustment by means of tool-free setting on the tool
- Wood Protection System means no blank firing, thus preventing damage to the workpiece

NEW! Brad Nailer GSK 50 Professional and Stapler GTK 40 Professional for furniture and window construction:
The precise tools for flawless finishing

- Slim design for precise positioning at the fastening point
- Wood Protection System means no blank firing, thus preventing damage to the workpiece
- Rubber-coated tip prevents damage to valuable surfaces

	NEW! Brad Nailer GSK 50 Professional	NEW! Stapler GTK 40 Professional
Application	Furniture and window construction	Furniture and window construction
Angle	0°	0°
Nail type	Brad	Narrow crown staple
Nail diameter (mm)	1.2	1.2
Nail length (mm)	15–50	15–40
Operating pressure (bar)	5–8	5–8
Weight (kg)	1.1	1.1
Part number	0 601 491 D01	0 601 491 G01

“The great thing about the GTM 12 Professional is its versatility. It gives me everything I need on the construction site: both a table saw function and a mitre saw function. The laser ensures maximum safety when sawing and gives me the required feel for precision.”

Thomas Haag, master interior fitter

Benchtop tools for precise work in any type of wood

Bosch benchtop tools are the perfect combination of power and precision. High-torque motors and high-quality features like an integrated laser allow for fast, precise work in any type of wood. This is why Bosch benchtop tools are used wherever accurate and fast work are required.

- ▶ **Combination Saw** P.26
- ▶ **Sliding Mitre Saws** P.26
- ▶ **Table Saw** P.27
- ▶ **Mitre Saw** P.27

Bosch Benchtop Tools – the highest standard in power and precision. Whether you are sawing panels, planks or boards, or making incline cuts or angled cuts – Bosch benchtop tools enable you to work quickly and very precisely thanks to their laser guidance (on the GTM 12 Professional and the GCM 8 S Professional). The result: maximum efficiency in every job.

Combination Saw GTM 12 Professional:
Multi-talented tool with 100% precision

- Table saw and mitre saw in one tool
 - Precise work with integrated laser
 - Powerful 1800-watt motor for fast work progress up to 95 mm cutting depth in hardwood*
- * in the mitre saw function

Sliding Mitre Saw GCM 8 S Professional:
Top class in precision and compactness

- Compact and lightweight (only 15 kg) for convenient transport to any construction site
- Precise working due to integrated laser
- Integrated height adjustment for groove cuts

Unlimited flexibility – the new mobility concept for benchtop tools
The Transport and Work Benches GTA 2500 W Professional and GTA 60 W Professional are a means of transport and a work bench in one. They fit all Bosch mitre saws, sliding mitre saws and table saws. They are assembled and dismantled with only one lever movement, without having to remove the benchtop tool.

More solutions regarding “Mobile Working” can be found on P. 32.

Double Bevel Slide Mitre Saw GCM 12 SD Professional:
High cutting capacity and high level of comfort

- Bevel setting on both sides up to 47°
- Easy, convenient angle setting on the front of the machine (52° L/60° R)
- Handle with softgrip can be locked conveniently in 4 positions

Table Saw GTS 10 Professional:
The powerful tool with large cutting capacity

- Powerful 1800-watt motor
- Cutting heights up to 79 mm
- Cutting capacities up to 635 mm to the right and 330 mm to the left of the saw blade

Bosch benchtop tools – Precision made easy
The integrated laser (on the GCM 8 S Professional and the GTM 12 Professional) marks exactly where the saw will cut and ensures absolute precision. High-quality, milled scales ensure accurate angle settings over the entire life-time of your saw.

“We were constantly recharging half-full batteries because the power was gone. The new lithium-ion cordless screwdrivers have now put an end to that. We can drive more than a pack of 200 screws, 6 x 60 mm, with only one battery charge.”

Andreas Wörlein, master carpenter

Professional power in every voltage class

The right tool for every job.

Cordless tools for professionals with Bosch Premium lithium-ion technology from 3.6 to 36 volts set new standards in performance and reliability. They excel due to their particularly long battery runtime, optimum weight and extreme robustness.

- ▶ **3.6 Volt Cordless Screwdriver** P. 30
- ▶ **10.8 Volt Cordless Drill/Driver** P. 30
- ▶ **14.4 Volt Cordless Drill/Drivers** P. 31
- ▶ **18 Volt Cordless Drill/Drivers** P. 31

Bosch Cordless Screwdrivers and Cordless Drill/Drivers are mobile, high-power tools for every application. Bosch is the only manufacturer to offer you a comprehensive range of cordless products from 3.6 volts to 36 volts with lithium-ion technology. The complete Bosch Premium lithium-ion range with over 60 products can be found at www.bosch-professional.com/li-ion.

Cordless Screwdriver GSR ProDrive Professional:
World's smallest professional cordless screwdriver

- ▶ Extremely small and handy – fits in any trouser pocket
- ▶ Powerful: 110 screws (3.5 mm x 30 mm in softwood) with only one battery charge
- ▶ Continuous work due to changeable battery and quick charger

	GSR ProDrive Professional	NEW! GSR 10.8-2-LI Professional
Battery voltage (V)	3.6	10.8
Max. screw diameter (mm)	5	7
Max. drilling diam. in wood (mm)	–	19
Torque, hard screwdriving applications (Nm)	7	30
Battery capacity (Ah Compact)	1.3	1.3
Weight including battery (kg)	0.5	0.95
Part number	0 601 9A2 070 (soft case)	0 601 868 171 (with L-BOXX)

Bosch Premium lithium-ion technology: Unique lifetime and runtime

Bosch was the first to introduce lithium-ion technology in professional cordless tools and has continually developed it further ever since. The result: the Bosch Premium lithium-ion technology.

Flexible use

All 14.4 and 18 volt cordless tools can be operated with one of the two different battery sizes Premium and Compact (200 g lighter) – the choice of battery enables the user to adapt the runtime and tool weight to suit the task at hand.

Cordless Drill/Drivers GSR 14.4 V-LI and 18 V-LI Professional:
The 14.4 and 18 volt long-distance runners

- ▶ Highest number of screws driven per battery charge in their class (14.4 Volt: 240 screws, 6 x 60 mm, in softwood) due to innovative lithium-ion technology
- ▶ Fast work progress due to powerful motor
- ▶ Perfect handling due to compact design and low weight (14.4 Volt: only 1.7 kg)

	GSR 14.4 V-LI Professional	GSR 18 V-LI Professional	GSR 14.4 VE-2-LI Professional	GSR 18 VE-2-LI Professional

Cordless Drill/Drivers GSR 14.4 VE-2-LI and 18 VE-2-LI Professional:
The extremely robust 14.4 and 18 volt cordless drill/drivers

- ▶ For the toughest screwdriving and drilling applications with high torque in wood and metal
- ▶ Electronic Motor Protection (EMP) protects the motor against overload and ensures a long lifetime
- ▶ Extremely robust: fully functional, even after being dropped two metres onto concrete, thanks to flexible Dura-Shield housing

Mobile Working: Intelligent solutions for transporting your tools

Bosch L-BOXX. The intelligent system for transporting and storing power tools, accessories and consumables.

NEW! L-BOXX:
The intelligent transport and storage system

- ▶ Unbeatably easy system of clicking together and separating the different L-BOXXes for transporting multiple power tools and accessories
- ▶ Exclusive compatibility with Sortimo in-vehicle equipment systems
- ▶ Flexible options for storing power tools, accessories and consumables due to Sortimo's wide range of accessories
- ▶ Very robust: fully splash-protected and a load bearing capacity of up to 100 kg
