

CAM LINK

Surfboard mount kit for action camera

General information

Surfboard mount kit to attach an action cam to and record all the action while you are riding the biggest waves. The camera is securely fixed to the mount. If the camera does come off however, a safety strap ensures that the camera stays connected to the mount and a floaty enables the camera to float on the water, its fluorescent orange colour making it easy to spot. A low viewing angle ensures dynamic, thrilling action videos.

Package contents

- Board mounting kit
- Security strap
- Floating aid
- Thumb screw
- 2x adhesive sticker
- Locking plug
