

Delock RJ45 Port Doubler 1 x RJ45 plug > 2 x RJ45 jacks (2 x Ethernet)

Description

This Y-adapter by Delock enables you to double a fixed installed network connection. Thus you can use one single cable for two simultaneous 10/100 Ethernet connections. This application requires two adapters, which need to be connected with each cable side to the networking socket or patch panel. Hence you get two female ports instead of only one.

Specification

- Connectors: 1 x RJ45 plug > 2 x RJ45 jacks
- Anodized plastic case
- Pin layout:

Plug	1 2 3 6	4 5 7 8	
Socket1	1 2 3 6	-	Fast Ethernet
