## GX330 Window Blue GX SERIES

ENCLOSURES

Take your gaming to the next level with the GX330 Window Blue, the next combat-ready addition to Antec's arsenal of gaming cases. With a look that embodies aggressive yet simple styling, the GX330 Window Blue is a chassis outfitted for the gamer who likes performance and style. In addition to 7 expansion slots, the GX330 Window Blue has room for graphics cards up to 400 mm, so you can create the perfect configuration for the build of your dreams. A total of 7 fan mounts and up to 360 mm radiator support in front and 120 mm in the rear, along with two pre-installed blue LED fans mean you're ready to push your system to the limit. Tool-less, easy-to-in-install drive bays enable you to spend less time fine tuning the details, and more time on conquering your enemies. Fan speed controls, USB 3.0, and a side panel window to show off your build round out the finishing touches on this versatile mid-tower PC case.
