

# DIGITUS Professional Modular KVM switch, single port

DS-72212  
EAN 4016032447573

## Digitus KVM module, single port for modularized KVM console

The modular DIGITUS® KVM switch offers a multitude of individual configuration possibilities, so that it can be adjusted to the area in which the console is being used. As a result, the console is economical and can be upgraded and/or converted at any time with further modules. Due to the flexible configuration, a high level of future security of the console is thus guaranteed. The modular KVM switch offers the connection of a server via USB or PS/2, as well as VGA. The DIGITUS® 17" oder 19" modular console, a keyboard and the appropriate set of cables are required for operation. The high quality KVM switch modules with IP function (optional) are ideal for use in small to mid-sized server rooms in which access by the administrator must be guaranteed from any place at any time. They offer a direct connection from a local console or with the optional IP module with a browser via an existing internet connection. The accessories are offered in the most diverse versions.

**Highest degree of flexibility during the administration of the server farm**

- Controlling a PC via the 17" or 19" DIGITUS® modular console
- Full control under all OS, in BIOS level, during boot, or at Blue Screens
- No software required
- Remote power wakeup on the target computer
- Extension via cascading possible
- Resolution independent of the installed console
- Hot plug support
- Keyboard and mouse emulation ensuring an error-free boot-up procedure of the computer
- Autoscan (5 to 90 sec., selectable)
- Compliant to USB 2.0 specification

## Package contents

- Modular 1-port KVM switch
