

# Delock PCI Express Card > 4 x external USB 3.0 Quad Channel

## Description

The Delock PCI Express card expands your PC by four external USB 3.0 ports. Each port is supported by a single NEC chip, which provides a high data transfer rate. You can connect USB devices like e.g. docking station, card reader, external enclosure etc. to the card. Due to the vertical direction of the USB 3.0 ports you can also install the card into a low profile slot.
