

Highspeed with
USB 2.0 and
eSATA

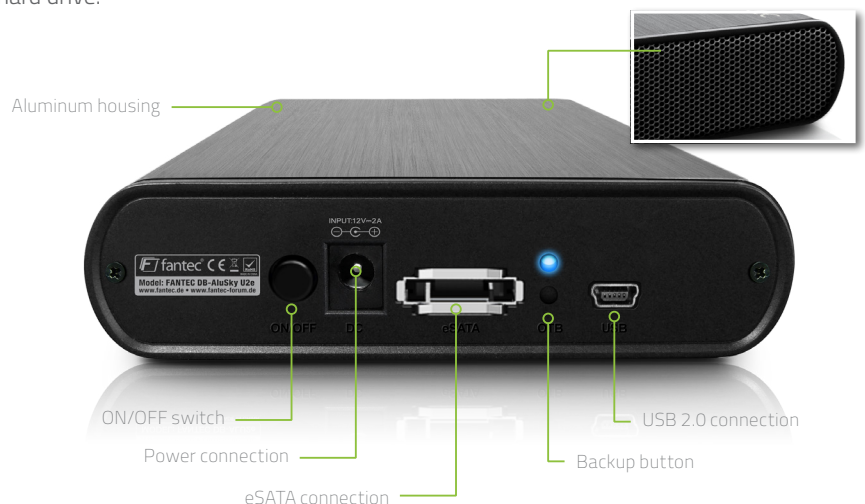

FANTEC DB-AluSky U2e.

The FANTEC DB-AluSky U2e is an aluminum hard drive housing for an internal 8.89cm (3.5") SATA hard drive. Due to the simple and quick installation and Plug & Play you can use the hard drive within a second. Your data will be transferred at the speed of light with a maximum of 3 Gbit/s via the eSATA.

The include backup software can be configured separately and provides many settings to secure your data, synchronization and restoring of data, and can be activated immediately by pushing the Back up button. The black aluminum housing provides the ideal safety of your data when you are on the road and passive cooling of the hard drive.
