

PRODUCT DESCRIPTION

Equipped with dual RCA inputs the R1100 can produce up to 42W RMS of audio output. A 4 inch bass driver and front facing bass reflex port ensures bass notes are robust and rich in sound. Connect to multiple devices and personalize your listening experience with the bass and volume adjustment dials located on the active speaker.

FEATURES

- Active bookshelf speaker system with 42W total power output
- Dual RCA inputs for connectivity to multiple audio sources
- Calibrated, flared front-facing bass reflect port
- 100% MDF wooden enclosures to minimize acoustic resonance
- Universal 100-240V power supply
