

## I402 / Performance C Series

With the new I402 INTEL cooler which is part of the Performance C Series, XILENCE presents a compact but very high-capacity cooler for powerful multi-core processors. The small cooler appears in classic tower design and convince with its extremely efficient heat pipes and the fin design arrangement. This design ensures that the air circulates more easily through the innumerable fins. Thus the fan speed of the 92mm PWM fan can be kept very low. Additionally, the heat transmission between CPU and cooler is very evenly and efficient due to the direct contact of heat pipes and CPU.

**Productfeatures:**

- Silent hydro bearing 92mm fan
- Two 6mm copper heat pipes for better air flow
- Fin Design for high airflow and efficient cooling of the CPU and surrounding components
- Slight overhang of the fan avoids hotspots
- Possible mounting of the fan on both sides of the heat sink
- Suitable for all current LGA 115x INTEL sockets

**Technical Data:**

Socket	LGA 1150/1155/1156
CPU max. Watt	130W
Fan Size	92 x 92 x 25mm
Fan Speed	600 - 2200 ± 10% RPM
Air Flow	65,4 CFM
Fan Control	PWM
Noise Level	14.0 - 23.8 dB(A)
Thermal Paste	included
Dimensions	101.4 x 72.7 x 137mm
Weight	408g
