Add a headset or speaker and microphone input to your computer, notebook or netbook, using the Ewent EW3751 USB Audio Blaster. It is easy to install, just plug in into an available USB port. Discover how virtual 3D sound improves the quality of your music!

Speak and hear
You can listen to your music and video using a headset or speakerset connected to the EW3751. And if you connect a headset with microphone or seperate microphone you can also talk to your family, friends or game mates. It is compatible with instant messaging software like Live Messenger , Skype and in-game audio/talk functions.

Easy to install and carry
The EW3751 is easy to install, it is automatically recognized and installed in Windows Vista and Windows 7. Because of the small size the Audio Blaster is easy to use and easy to carry with you wherever you go. You can use it at home, office and on the road on a computer, notebook or netbook!

With headset input and microphone input
You can connect a headset or speakerset and microphone on the audio adapter. The EW3751 has two 3.5mm jack input sockets and comes with a USB extension cable.
