4016032343585

DN-19 42U-8/8-B-1

DIGITUS 42U network cabinet
2053x800x800 mm, color black RAL 9005 glass door

The DIGITUS® Unique Series is made for high demand IT-Infrastructure Solutions - designed and developed on highest standard in Germany

The DIGITUS® Network Cabinet Unique Series is designed and produced for cabling and networking components. They provide maximum optimization resulted to an optimum performance in between quality and added value. Each cabinet is designed with strength, ease of use and aesthetics in mind. Features such as 1 unit marking on the mounting profiles, easy and quick release doors and side panels, fully adjustable front and rear profiles of the cabinet make the product extremely attractive to installers. Vertical cable management provides full height channels adjacent to the front mounting profiles. Patch and installation cables can be routed from the channel into patch panels or equipment through the frequently positioned access slots. The channel is covered with a hinged door plate in order to ensure a pleasing look. The incredible design of the Unique Series is rounded up with the use of a framed smoked safety glass front door fitted with a swing handle lock. Door hinging can be quickly reversed left to right. The Unique Series is available in 5 heights from 22 units up to 47 units. A various size of 600 mm, 800mm and 1000 mm depth are in the portfolio of the Unique Series. Each cabinet includes lockable glass front door, lockable steel back door and lockable side panels. Furthermore 2 sets of adjustable mounting profiles are equipped, and the roof is prepared for fan trays and entry brush stripes are included. A huge range of DIGITUS accessories are available to customize the cabinet due to the needs of the end-user.

- 1.5 mm strong sheet steel with a high loading capacity, powder coated
- Side sections detachable and lockable
