

## DIGITUS® Network Cabinet Unique Series

✓ 1.5 mm strong sheet steel

✓ Loading capacity up to 600 kg

✓ Available in colors grey and black

✓ Large range of equipment available

### Abstract

DIGITUS® Network Cabinet Unique Series, 600, 800 mm width - 600, 800, 1000 mm depth

### Features

- Safety class rating IP40
- Steel front door with safety glass and swing handle lock
- Side panel lockable
- Double steel rear door, lockable
- EMKA lock system
- 120° opening door angle, front- and double rear door
- Door stop easy to change from left to right
- High frame rigidity due to special plate-curving-technique
- Steel plate 1.5 mm
- 600 kg loading capacity
- 19" profile rails mounted in the front and the back of the cabinet
- 19" profile rails adjustable in depth
- 19" profile rails with unit-marking
- Cable management channels beneath the front 19" profile rails
- Big cable entry with black cellular rubber seal on the bottom
- Cable entry with brush strip at the top and bottom of the cabinet rear wall
- Adjustable feet for safely positioning
- Special roof construction for fan unit
- Available in color grey (RAL 7035) and black (RAL 9005)
- Several earthing points for rack components
- Rack is completely mounted
- Large range of equipment is available

## Product Overview

The DIGITUS<sup>®</sup> Network Cabinet Unique Series is designed and produced for cabling and networking components. They provide maximum optimization results to an optimum performance in between quality and added value. Each cabinet is designed with strength, ease of use and aesthetics in mind.

Features such as 1 unit marking on the mounting profiles, easy and quick release of the doors and side panels, fully adjustable front and rear profiles of the cabinet, make this product extremely attractive to installers.

Vertical cable management provides full height channels adjacent to the front mounting profiles. Patch- and installation cables can be routed from the channel into patch panels or equipment through the frequently positioned access slots. The channel is covered with a hinged door plate in order to ensure a pleasing lock.

The incredible design of the Unique Series is rounded up with the use of a framed smoked safety glass front door, fitted with a swing handle lock. Door hinging can be quickly reversed left to right.

The Unique Series is available in heights from 22 units up to 47 units. A various size of 600 mm, 800 mm and 1000 mm depth are in the portfolio of the Unique Series. Each cabinet includes a lockable glass front door, a lockable steel back door and lockable side panels. Furthermore 2 sets of adjustable mounting profiles are equipped, the roof is prepared for fan trays and entry brush stripes are included.

A huge range of DIGITUS<sup>®</sup> accessories is available to customize the cabinet due to the needs of the end-user.

## Conform due to standards

ISO 9001:2008	Quality management system
EN 61587-1:2012	mechanical carrier for electric systems
EN 60950-1:2006	CE information technological systems - safety - part 1 - general requirements
IEC 297-1	19" Unit
IEC 297-2	metric unit
