CHOOSE YOUR STYLE

FEATURES

Diamond Cut Design: Stand out from the rest with a Three Dimensional diamond cut design extending from the front bezel to side panel.

RGB Lighting Effect: The included RGB controller connects three pre-installed RGB LED fans and an RGB power button to create an amazing lighting effect.

Edge to Edge Acrylic Side Panel: Show off your build through the unique shaped edge to edge acrylic side panel and enjoy the special lighting effect from different viewing angles.

Covers For Clean Build: An additional cable cover takes cable management to the next level. Assemble clean builds like a pro!

Cooling Performance: Support for a total of six 120mm fans and support for front, top and rear radiator placement, ensure you don't have to compromise on performance.

Graphics Card Support: Equip yourself with the latest graphics card up to a length of 407mm for your cutting-edge system build.

Cable Management

The 19mm width space behind the mainboard tray gives you plenty of cable management options to keep your build nice and clean.

The MasterBox TD500 makes you stand out from the rest with a Three Dimensional diamond-cut design extending from the front bezel to side panel. This unique edge-to-edge side panel will create special lighting effects from different viewing angles. The included RGB controller connects three pre-installed RGB LED fans and an RGB power button to compliment the design.

The full black coated interior is the perfect canvas for your build. The PSU cover and space behind the mainboard tray provides enough room for cable management to keep your build nice and clean.

Support for a total of six 120mm fans and support for front, top and rear radiator placement, ensure you don't have to compromise on performance. Graphics card support up to 407mm allow you to equip yourself with the latest graphics cards for your cutting-edge system build!
