

Sync & Charge Cable | Gold-Plated 2.0m | USB-A Male to 8-Pin Lightning Male Cable | Suitable for Apple Devices

General information

This premium Nedis® Gold-Plated Sync & Charge Cable – USB-A Male to 8-pin Lightning Male – allows you to synchronise and charge your Apple iPhone, iPad or iPod with a Lightning connector.

Suitable for the newest generation of Apple models, a transfer rate of 480 Mbps is achieved by the cable's copper core and gold-plated connectors.

Features

- USB 2.0 – for fast data transfer of 480 Mbps
- MFI-licensed cable with certified Apple chipset – to guarantee a long-lasting functionality and compatibility with new software updates and changes to IOS
- Durable flexible sheath – to avoid cable stress and conductor fractures
