evnbetter

Innovative and creative: xcd 2 slimline. Spectacular lighting designs with glare-free effects. It's time for BRIGHT creativity!

Ready for bright moments!

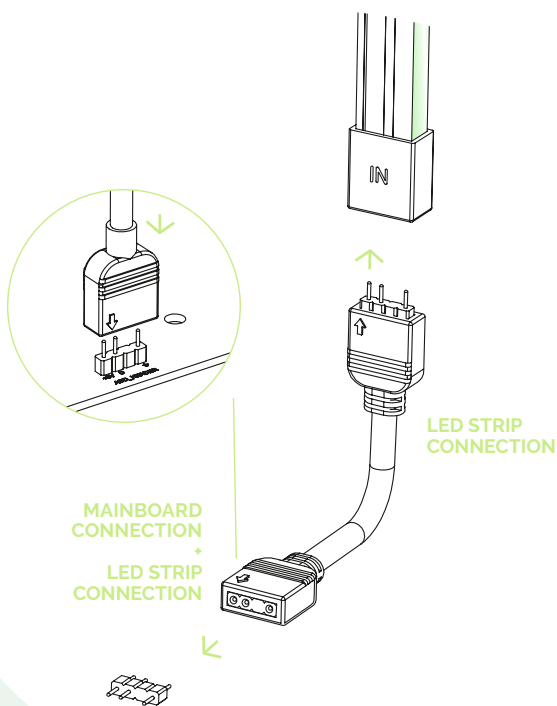

Enjoy innovative evnLight technology: xcd 2 lines scatter the light for even lighting. Perfect for glare-free effects + creative light designs, like lettering on your wall.

INNOVATIVE!

- > With the highly flexible and horizontally bendable, only 6 mm thick xcd 2 slimlines you can represent all kinds of shapes and patterns. The ambient lighting of your gaming area turns into an individually designed lighting experience.
- > evnLight-Lines are equipped with individually addressable LEDs and a special light diffuser.
- > slimlines come to you with aluminum clips. These facilitate the attachment of xcd 2 forms on various surfaces, for example on a wall. You can screw or glue them!

PRACTICAL!

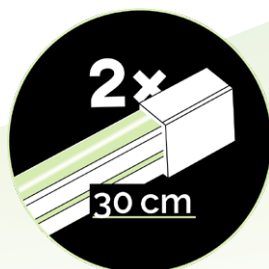

- > Compatible with all eb #1, #2 + #3 controller + all mainboards with a 3 pin RGB Header +5V, DATA, GND [xx xl]
- > Compatible with all eb xcd 2 and xcd 3 accessories
